Progress Report: Before each annual thesis advisory committee meeting, submit a progress report to your thesis advisory committee. Summarize the specific aims of the previous project period and the importance of the findings, and emphasize the progress made toward their achievement. Explain any significant changes to the specific aims and any new directions including changes to the specific aims and any new directions. A list of publications, abstracts for presentations at scientific meetings, patents and/or invention disclosures, and other printed materials should be included, if any. The written report should not exceed 3 pages.

Page Format and Font: One inch margins all around, Arial font, 11 point, single spaced.

Oral Presentation: Students will give an oral presentation of approximately 45 minutes to the thesis advisory committee in which progress described in the written report is presented and discussed.
